NRF MAP

On selecting the NRF→Map the following screen will appear.

As shown in the following screen it will show the map route with you current location and nearest joints.

The map will pin point top 5 joints handholes , with 1 2 3 4 5 marker as shown in the snapshot just after the following one.

- Customer: Current Location of the use. If the user he can enter the customer coordinate manually.
- Joints/Handhole: These are coordinates of Joints/Handhole. This will be changed on clicking anywhere in the map.
- After setting both of the coordinates press calculate route in order to see the route map and distance in meters.
- Hit on the estimate button for InfraCosting.
